

WAR MEASURES ADOPTED.

SENATE PASSES THE HULL BILL, WITH AMENDMENTS.

After a conference with the House and Senate, the Senate passed the bill, with amendments, which prohibit the exportation of coal or other material used in war, and also the exportation of arms and munitions.

Washington, April 21.—After some routine business in the Senate Mr. Money (Dem., Miss.) called attention to a newspaper statement that there would be no privatising of the United States, and that the Government would not sell the land to the people.

Mr. Money remarked that it was well known that the Senate should take notice of the matter and have it distinctly understood that the President and his Cabinet had not the slightest power over the subject matter.

Mr. Money said that he thought it his duty to call attention to the newspaper statement, and that the Senate should take notice of the matter.

BROOKLYN MILITIA ALL BUSTLE.

Black and White Will Go to Call Upon— "Dancing" in the Twentieth.

The Colonels and other officers of the various Brooklyn regiments were in conference last night at their respective armories awaiting orders from Major-General. There were more than a score of colonels present.

Colonel-General, said that there would be no difficulty in increasing the strength of the regiment to 1,000. Col. Harry W. Mitchell, who retired from the command of the regiment a few months ago after thirty-five years' continuous service, may be restored to the command by Gov. Black.

He fought with the regiment all through the civil war, and he announced yesterday that he will go to the front again with his old comrades, even if he has to enlist as a private. So far the officers have been unable to agree in the selection of his successor.

There was considerable suppressed excitement among the members of the Thirtieth Regiment last night. The general idea was that if the regiment could volunteer as an organization and retain its own officers fully 95 per cent of the men would at once come to go with the regiment.

Company B, in command of Capt. John T. Jennings, held a meeting to discuss the matter. They were in session for over two hours. Fifty-eight members took part in the discussion, and this resolution was finally adopted:

"Resolved, That we are ready to go to the front in the service of the President of the United States, and to the call of the State if required; be it

Resolved, That we hold ourselves in readiness to obey all orders coming through the proper channels. A few members desired to have an amendment adopted that the company volunteer to go to the front in the service of the President of the United States, and to the call of the State if required; be it

Resolved, That we hold ourselves in readiness to obey all orders coming through the proper channels. A few members desired to have an amendment adopted that the company volunteer to go to the front in the service of the President of the United States, and to the call of the State if required; be it

RUSH TO ENLIST FOR WAR.

VOLUNTEERS ENROLLING FOR ARMY SERVICE IN MANY PLACES.

They are eager to fight for the Country—Foreign Militiamen Among Them—Philadelphia Men to the Front in Pennsylvania.

PHILADELPHIA, April 21.—Within a stone's throw of the municipal building the Winter Circus building, a structure built in the form of a colosseum, and the scene of local boxing entertainment, was last night the scene of the largest day to day assembly of the State to recruit volunteers. A brigade is in process of forming there, and there are at present over 4,800 men on the rolls. Fifteen per cent of the enlistments are from former members of the National Guard. In the enrollment are about 800 members of the United German Slavic Societies of Philadelphia.

William F. Mannix, a former newspaper correspondent in Cuba, and former cadet at Annapolis, is raising a regiment of volunteers under State authority. The Councils of Philadelphia appointed to day a committee of Public Safety, such as was appointed in 1891, to provide for the comfort of soldiers and the care of the wounded.

PHILADELPHIA, April 21.—The war fever at the University of Pennsylvania has reached considerable proportions, and active preparations have been begun under the direction of George W. Woodruff of the Pennsylvania football team to organize a regiment of a thousand men. Volunteers were called for in the student body to-day, and upward of 850 have already signed their intention of joining, irrespective of the number of university men who are regular members of the National Guard and naval reserves. Woodruff spent today at Harrisburg with Gov. Hastings arranging for the commissions of the volunteers.

After the regiment of Pennsylvania students is organized Woodruff will organize another body among the other State colleges. His plans are to have a great annual football game, the crack and rush of the Pennsylvania football team and captain of the crew, has been commissioned by the Navy Department to recruit forty-two men to serve under Capt. Sigbee in the auxiliary St. Paul now lying at Cramp's shipyard.

Chicago, April 21.—Chicago's patriotism is being demonstrated all over the city. Officers at the various recruiting stations are working overtime to examine applicants who are eager to join either the land or naval forces. Hundreds of names are daily added to the already long list of recruits. Even the women are flocking to the front, and fifty of them have volunteered as nurses. They say if they are not accepted they will offer themselves to Gen. Gomez. Many trained nurses have offered their services, and a company of them has already been organized. Some of the volunteers will soon be recruiting stations in the three parts of the city. Two hundred members of this organization in Cook county have formed a regiment and selected ex-State's Attorney Joel M. Longenecker as its commander. The regiment is open to all sons of veterans of the rebellion, whether they are members of the organization or not.

TERRE HAUTE, Ind., April 21.—To local council of the Young Men's Institute, "an organization with 50,000 of young unmarried members of the Catholic Church, has received information from headquarters that it is the purpose to organize a regiment of volunteers from the membership. National Chairman H. W. Rives says in a letter:

"Should the necessity arise (and may God forbid it) we would carry to the front our glorious motto 'For God, for Country,' along with the stars and stripes and our hearts and blood. Let us not, however, be carried away with enthusiasm and excitement, but let us be ready for any emergency."

NEW HAVEN, Conn., April 21.—Forty men, members of the Capt. Eliza Peck Garrison, No. 1, regiment of the National Guard, have volunteered to go to the front in the service of the Government. They are joined by thirty-five members of the Bridgeport Garrison, forming one company, every man of whom is an ex-United States regular, or an ex-naval man. John H. Conlin, commander of the Bridgeport division, has been ordered to go to the front in the service of the Government. He is a member of the National Guard, and has been in the service of the Government for many years.

BOSTON, April 21.—Capt. Shaughnessy of the City Rifles issued a call this morning for volunteers to fill up the company to 100. It now numbers about 60. The Captain said this morning that in event of a call to arms he would be on his way to Boston with his command in twenty minutes.

MONTEVIDEO, Uruguay, April 21.—Col. O. D. Clark, commanding the regiment of the Vermont National Guard, is hourly expecting orders to mobilize his command at Brattleboro or some point in the southern part of the State. For weeks preparations to this effect have been carried on by Col. Clark, Quartermaster-General of the Vermont National Guard, and his staff. It is expected that in a few hours after it was called upon the regiment could be on the move. Every town and city in the State where a company is situated have notified Gov. Grosvenor that they are all ready to comply with the Vermont call to arms. The work of organizing such a squad has been progressing for several weeks under the direction of Mr. Logan and a number of others well known in equestrian club circles, and the receipt of the document from Washington giving the plan of official sanction practically insures the success of the movement.

It is the start of the plan many members of riding associations in all parts of the city have been approached, and according to reports, every person seen has given the plan his hearty endorsement and willingly offered his services. The roster of the troops when completed will, it is said, contain names of members of such organizations as the Washington Park, Saddle and Cycle, North West and South Side Equestrian, and the Bit and Spur clubs. Only experienced horsemen will be accepted and none but those who have seen actual service will be commissioned as officers.

ALBANY, N. Y., April 21.—Great excitement is prevailing on the publication of the war news from Washington in the evening papers. The recruiting station of the volunteer reserve was packed with men who wanted to enlist, and later in the evening this crowd increased to a mob.

HARRISBURG, Pa., April 21.—George Woodruff, the famous University of Pennsylvania football coach, is raising a regiment from the various colleges and institutions of learning in the State to fight Spain. Mr. Woodruff was here to-day and had a protracted conference with a score of applicants for enlistment. The recruiting station of the volunteer reserve was packed with men who wanted to enlist, and later in the evening this crowd increased to a mob.

which had to be kept in order by policemen as the men awaited their turn for the examination. There were also five enlistments in the Forty-first Separate Company. The crowd burned an effigy of Weyler on Clinton square.

MARYLAND'S MILITIA.

The Men Want to Go Into Action as a Unit—Their Equipment.

BALTIMORE, April 21.—The statement made in this city this morning that, based on the population of the State, 1,200 militia would be needed from Maryland, and that they would be merged into one regiment, is scouted by all the officers of the militia. They are unconditionally opposed to such action, and say that if the Maryland militia is to go into action it should be as a unit, and known as the "Maryland Line." The officers and men will be paid according to State rates if they are taken into action. The rate will be \$1.00 a day, and when they become United States volunteers.

It is expected that the completion of the work of equipping the regiments will not come until the brigade goes into such a camp. New guns, 30 calibre, will be provided. Boots, canteens, and complete campaign equipment will be furnished also.

The employees of the Chamber of Commerce who are members of the Maryland militia or naval reserves and State militia will not lose their places if they respond to the call of their country. Although there has been no formal action upon the subject, it is understood that the Executive Committee is unanimous in favor of filling such places as may become vacant in the event of the present incumbents being called into the military service with the understanding that the appointment is only temporary and will be revoked when the original incumbents are able to return to their places, continuing salaries while the employees are absent in the field.

AWAITING THE CALL TO ARMS.

Eight Thousand of the State's National Guard Willing to Join the Army.

ALBANY, April 21.—As soon as
